FALES' MEDICINE. FALES' Cathartic and Vegetable Pargative Lozengers, and the beat and decidedly the most popular article, nor only for adults but for children of all
countries and climates, and in every condition of life.
They are strielly vegetable, with a taste inexpressibly
delightful; they cause no pain in the operation but on
the contrary feelings of pleasure, cleansing the stomach and bowels more perfectly than any other purgative. Their magic like operation surprises the most
eminent physicians, and they are rapidly taking the
place of all other purgative compounds. Every traveller should carry them, every family should keep
them, and every man, woman and child should take
them.

FALES WORM LOZENGES

FALES WORM LOZENGES Are a sure remedy, and children love them, they act like a charm in removing the symptoms, starting in sleep, grating the teeth, paleness about the mouth and no-e, sickness at stomach, precarious appetite, swelled howels and general fever; the child falls into a quiet sleep, the worms are stupified and expelled in every instance as far as heard from the patient is entirely cured.

FALES' COUGH LOZENGES, For coughs, crids, bronchitis, incipient consump-tion, whooping cough and croup, the most happy effect is obtained in a new moments, the symptoms disappear and the aisease is at once broken up. A single trial is aufficient to satisfy the most skeptical. FALES' DYSENTERY LOZENGES

SALAMANDER SAFES.

WITH the recent improvements of S. C. Herring, of 139 Water street (who possesses the parent right of the article for the State of New York,) these Safes may be pronounced perfect. Of their alsolute impenetrability by fire it is unnecessary to speak; a long series of successful experiments, clinched by the result of the thirty-six hours' fiery ordeal to which one of these Safes was exposed in the burning ruins of the Tribune buildings, have set that matter at rest foreyer. But by a recent improvement they are now rendered as impervious to damp as to fire; and nothing placed in one of them can mould or mildew. Each of these Safes is furniched with one of Chubb's detective locks, which cannot be picked. Thus the Salamander Safes, manifactured by the subscriber, are at once fire proof, damp proof, and thief proof. Can security go farther?
